SNAP!

## Can you find the card with the same meaning?

Hacking

Someone tries to get into your social media account by guessing your password or tricking you into giving it. Or when somebody interferes with your computer or account using technology in ways that are not OK.

Phishing

When someone sends emails or makes a website pretending to be real and tries to get people to pay money thinking they're dealing with the actual company or shop.

Catfishing

Someone fakes their identity so you think they are someone they are not.

Clickbait

FAKE?

A picture or a headline used to make people click on that story which may be untrue or not even about the headline.

It makes us curious and we want to know more.

Inappropriate

This photo, video or message is not OK. It is not right to send it as it might hurt or offend or insult someone.

It should not have been sent to me.

It is not suitable and may be rude.

Block

On most social media accounts, tools let you stop someone sending you messages. They will know you have blocked them. On Instagram, you can choose to restrict someone, they will not know you have done this.
